

Online Safety Agreement

Having access to technology is a wonderful thing and being online is part of that. Following this agreement will help you to make sure that you have fun and stay safe whenever you use technology. Read through it with your parent and make sure you both understand. If you have any questions please contact the school.

I will be a good communicator

by using good manners at all times and never being rude or nasty to others in any emails, texts and online conversations.

I will only accept good communication

by expecting good manners from people who email, text or have online conversations with me. If anyone says or does anything to upset me I will keep the messages and show them to a trusted adult.

I will be careful what I post

I'll stop and think about the consequences before I post something online. I will never post or forward information, photos or videos that could cause embarrassment or put me or anyone else at risk.

I will be careful who I have as an online friend

by only accepting people that I really know and only sharing my profile with friends.

I will be careful what I share

by keeping my personal information private. I will never share my, or anyone else's full name, address, passwords, school name, email address, current location or phone numbers with anyone online.

I will be careful who I meet

I won't meet up with anyone I talk to online unless my parent or carer says it is ok and they come with me.

I will listen to my feelings

and tell a trusted adult if anything I see or hear online makes me feel sad, scared or confused.

I will make sensible choices wherever I am

At school by only accessing sites that help me learn and that my teachers give me permission to use.
At home by choosing sites and games that are meant for young people my age.
